SHIPPING INSTRUCTIONS

- We welcome you to send your items to us by Fedex, Canada Post Express Post, Purolator or Priority Courier. (We recommend Fedex for high value shipments).
- Package your items very securely. **Be sure to include all of your contact information inside the box.** For high value shipments, we recommend using a box or other packaging inside a second box, with both the outer and inner box addressed. This protects against the unlikely event of the outer box being torn or damaged in shipping.
- Address the package without advertising the value. We recommend not to put a declared value on the outside of the package, unless the package is coming from outside Canada and it is required for Customs.
- If you are shipping a package valued at more than \$25,000, please contact us in advance to arrange for insurance.
- Be sure to include your return address on this shipping label.
- Print this label, cut along the dotted line, and tape the top portion to your package.
- Take the package to a shipping outlet for shipping.
